# Fleet Tracker MGS100 Self-Install

INSTALLATION GUIDE

KIT INCLUDES:
MGS Device
OBD-II Cable
4 Zipties

STEP 1   Locate the OBD-II Port in your vehicle which is usually under the dashboard left of your steering wheel. Or consult your owner's manual to locate it.

STEP 2   Connect the OBD-II connector on the MGS to the OBD-II socket in your vehicle.

STEP 3   Secure the MGS and the wiring under the dashboard to avoid breakage. The MGS must be installed with the label facing the sky with the MGS as close to the top ofthe dashborad as possible and kept clear of foot pedals.

STEP 4   Login into Fleet Complete Application and update the asset with Vehicle ID, VIN and Odometer reading.

WARNING:

The device and all related cabling must be securely fastened and kept clear of all vehicle controls, including throttle, brake and clutch pedals, as any loose cabling or devices may impede the use of vehicle controls, which could lead to serious injury or death.
