

Quick Reference Card

Getting Started with the Self-Installation Assistant (currently only available for Android users)

LOGGING IN

Ensure you have downloaded the APK file to your mobile device before performing these steps. For more information, please refer to your onboarding email from the Fleet Complete Loyalty Team.

SIGN IN SCREEN

1. On the *Sign In* screen, tap **Client-Install**.
2. Tap **Client ID** and then type your Fleet Complete client identification number.
3. Tap **Username** and then type your login name.
4. Tap **Password** and then type your password information.
5. If you would like the mobile app to retain your login credentials for future use, tap the **Remember Details** checkbox.
6. Tap **Sign In**.

Note: on subsequent login attempts if you forget your password click the **Lock** button to view your information and then tap **OK**.

SCREEN ... (1/7)

7. Locate the serial number of the MGS 700 device that you are installing.
8. Tap **Serial Number** and then type the device id in the field.
9. Tap **Next**.

SCREEN ... (2/7)

10. Read the text below the image.
11. Ensure you are in close proximity to the vehicle.
12. Ensure the vehicle's ignition is in the **Off** position.
13. Tap **Next**.

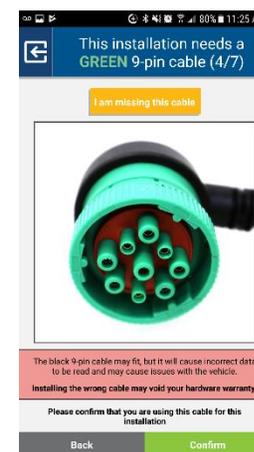

SCREEN ... (3/7)

14. Tap the image that corresponds to your vehicle's connector.
or
To access help information, tap the **Where do I find my connector** orange bar. On the pop-up window read the text and then tap **OK**.
15. Tap the **Next** button.

SCREEN ... (4/7)

16. If you have the correct cable, tap the **Confirm** button.
or
If you do not have the correct cable, tap **I Am Missing This Cable**. Read the pop-up window and then tap, **OK**.

Quick Reference Card

SCREEN ... (5/7)

17. Attach the **Cable** to the **Connector** as shown in the image on the screen.

or

If you would like more information about how to attach the cable to the connector, tap **How do I connect the device** bar. Read the pop-up window and then tap, **OK**.

18. Tap **Next**.

CONFIGURATION SCREEN ... (6/7)

The app will now begin to process the information.

19. View the *In Progress Configuration* screen.

20. If the configuration is complete the Successful screen displays. Tap **Continue** button to proceed to the **Step 24**.

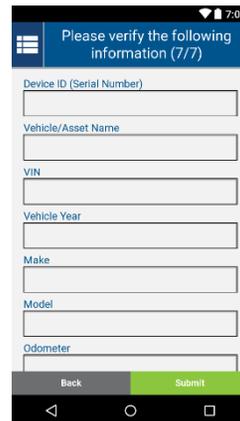

21. If the configuration is not complete the unsuccessful screen displays. Tap **Retry** to re-attempt the configuration and then proceed to **Step 22**.

VERIFICATION SCREEN ... (6/7)

If the information was able to be gathered from the vehicle's ECM the fields on this screen will be pre-populated. If the information was not able to be gathered this screen will only pre-populate the device ID field. You have the option to type the information manually using the Mobile App or you can add it later using the FC Desktop application.

22. Verify and/or type the information in the following fields, as necessary:

23. Click **Submit**

Field	Description
Device ID	The serial number of the MGS 700 device
Vehicle/Asset Name	The name of vehicle
VIN	The vehicle's identification number
Vehicle Year	The calendar year that the vehicle was manufactured
Make	The vehicle's make
Model	The vehicle's model
Odometer	The vehicle's odometer reading value

COMPLETION SCREEN

24. If you want to perform another installation, tap the **Install another Device** blue button.
or
If you do not want to perform another installation, tap the **Finished** green button
